COMPANY POLICY

We manufacture high quality products, in large series, of prices to ensure continuous customer demand.

Our market target – direct supplier of large commerce chains and / or subcontractor to suppliers in the furniture industry.

We invest the majority of our profits in technological equipment of the best world class, suitable for our production profile.

We maintain and update the building and machine fund of the company, to ensure conditions for safe and ergonomic work.

We save resources of the production of all types and levels and use technologies that do not harm the environment.

We build corporate policy of team and long-term work in the company through training, benefits and decent wages.

We work in all areas in strict compliance with national and international law, established business ethics and morals.

We contribute to the development of the city and the region in which we are located, by correct corporate and tax policy, and also sponsorship and charity.
